

SuiteDocs™

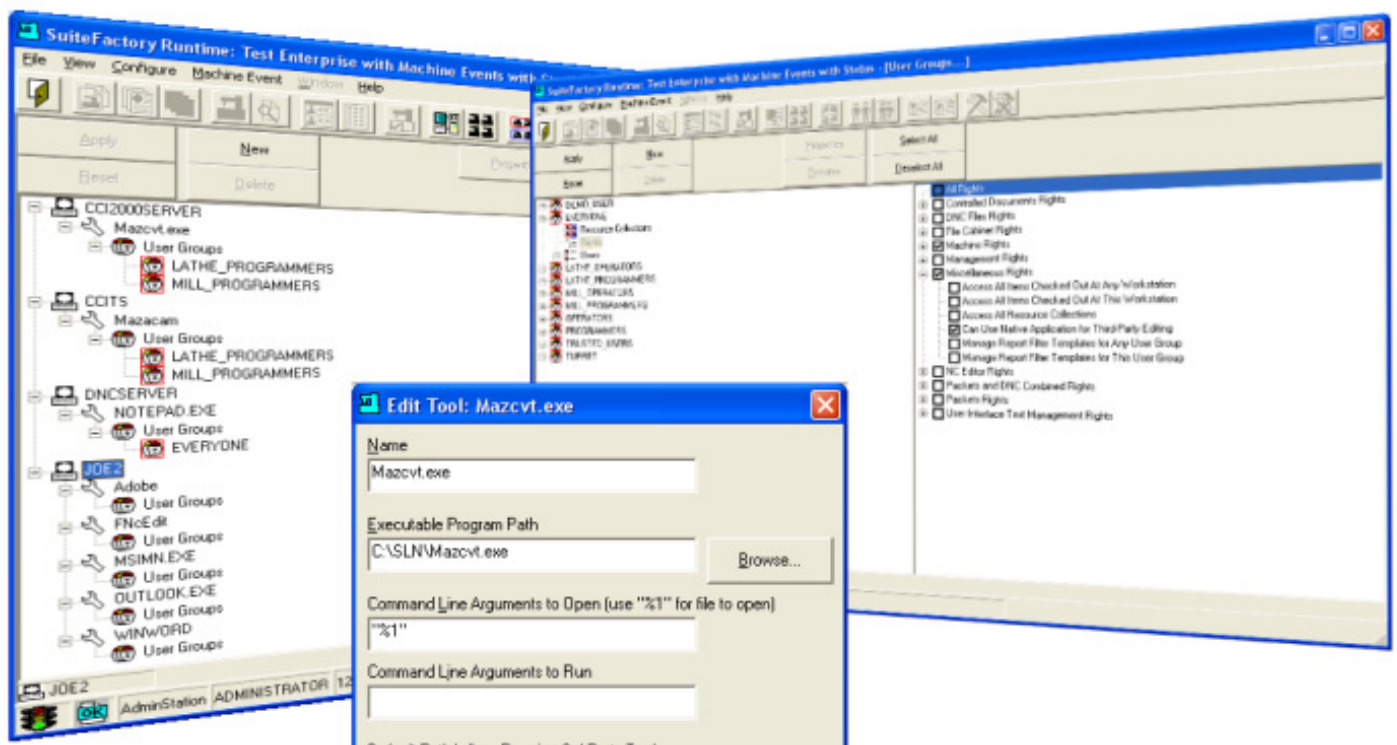

SuiteThirdPartyTools™

Allows Creating Secure Gateways to External Applications
 A Database-Driven Tool Kit For Attaching to External Applications
 A SuiteDocs™ Module
 For Windows 7™/Windows XP™ including Terminal Server Support

SuiteDocs™ SuiteThirdPartyTools™ supports Creation of Secure Third-Party Gateways to External Applications. This Allows you to select a File or Document from SuiteDocs™ Database so you Can: View, Edit, Copy, Rename, etc. using the Third-Party External Application and then store these "Documents" in SuiteDocs™ database so you can later Control & Manage all these from within SuiteDocs™.

Using SuiteDocs™ SuiteThirdPartyTools™ in combination with SuiteVault™ provides revision control, approval control, event capture and creation of "Birth to Death Histories" of all documents & files.

SuiteThirdPartyTools™ A Secure Gateway to External Applications
